

# Local Choices - principles

Anglian Central RFCC in June 2014 agreed to the following principles for the allocation of IDB Precept:

- The Precept programme will reflect the amount of Precept raised, so that there is a **clear link between money raised and work progressed and completed.**
- The Precept will be used either for works **within or adjacent to an IDB District** or for works **downstream that benefit the District.**
- The Precept can be used to fund maintenance activity to **Main River that may not have be prioritised for FCRM GiA funding.**
- It is possible for several IDBs to **pool their IDB Precept contributions over one or more years** if they chose to do so for a common benefit. E.g. Whittlesey Washes.
